COLOUR GUIDE

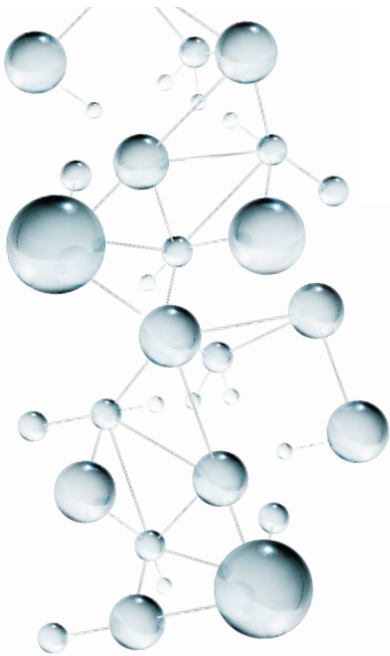

MADE IN ITALY

MORE THAN
A COLOR.
A NEW LIGHT.

3D LUX TECHNOLOGY

HIGH QUALITY

High quality micropigments penetrate deeply into the hair fiber, ensuring an excellent grey coverage and long lasting colour. The high quality of these micropigments guarantees stability and intensity of the colours. **RESULT:** Hair is revitalized, shiny and easy to comb. The colour is vibrant, intense and multi-faceted.

ALTA QUALITÀ

I micropigmenti penetrano in profondità nella fibra capillare, garantendo un'ottima copertura e una maggiore durata del colore. L'alta qualità dei pigmenti, assicura stabilità ed intensità del colore.

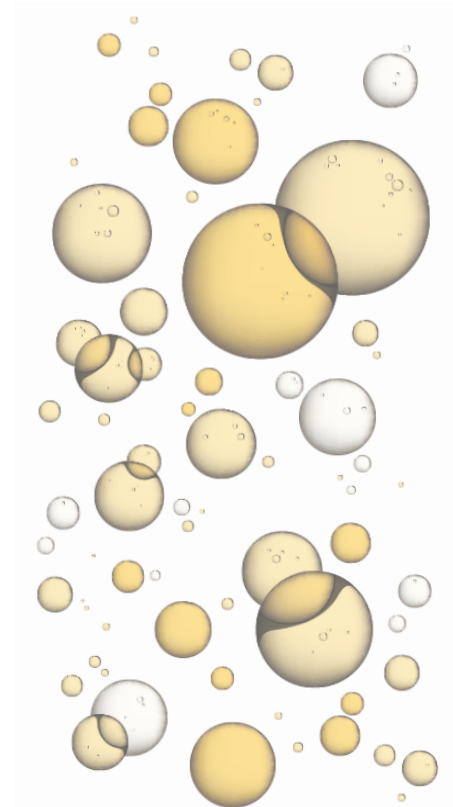

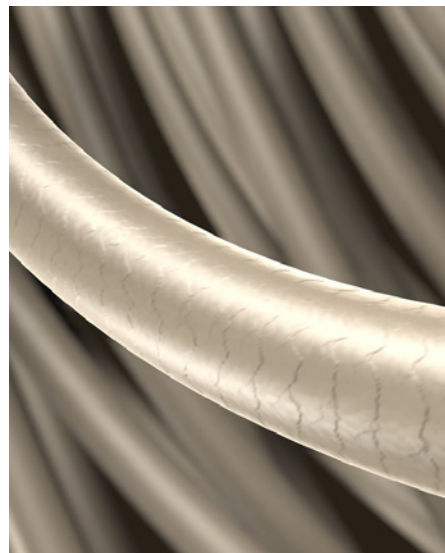

RISULTATO: I capelli idratati sono vitali, brillanti e setosi. Il colore è vibrante, intenso, multifaccettato.

PROTECTION

Low molecular weight Hydrating Peptides penetrate deeply into the hair fiber and bind tightly to the hair proteins allowing to maintain the proper water balance and improving strength and vitality of the hair, while a special anti-irritation molecule (Decil Oleate) creates a protective film for skin and hair during the application.

PROTEZIONE

Oligopeptidi idratanti di ridottissime dimensioni molecolari penetrano in profondità nella fibra capillare e si legano saldamente alle proteine del capello, mantenendo il corretto livello di idratazione e apportando notevoli benefici in termini di vitalità e forza del capello: Il Decil Oleate, uno speciale emoliente anti-irritazione, crea un film protettivo per cute e capelli durante l'applicazione.

MOISTURE

Soft cream, easy to apply, rich in moisturizing and soothing agents (Argan Oil and Marigold). The antioxidant, hydrating and soothing properties of the Argan Oil help to strengthen and protect hair during the colour treatment. The Marigold extract is rich in Carotenoids and Flavonoids with high calming and soothing properties.

IDRATAZIONE

Crema morbida, facile da applicare, ricca di agenti condizionanti e lenitivi. Le proprietà antiossidanti, emollienti e idratanti dell'Olio di Argan aiutano a rinforzare e a proteggere il capello durante tutto il trattamento. L'estratto di Calendula è ricco di Carotenoidi e Flavonoidi con elevate proprietà calmanti e lenitive.

COLOR WHEEL

MIXING RATIO OF 3DELUXE AND PEROXIDE

1 + 1.5

1 x 100ml tube of 3DeLuXe

+

150ml of 3DeLuXe Cream Peroxide

On 0% to 50% of white hair

***Alternatively* 1 + 1**

1 tube 100ml + 100ml of peroxide

On 50% to 100% white hair

Choosing the Shade

Always evaluate the percentage of white hair as well as analysing the scalp. For first application on Natural Hair:

From 0% to 30% white

Choose natural or fashion shades as desired

From 30% to 70% white

Choose desired shade and mix 1 + 1 with a .0 or .00 shade

From 70% to 100% white

Choose desired shade and mix 1 + 1 with a .0 or .00 shade

Choosing the Peroxide

Creme Peroxide 10 Vol.

- To colour the same base tone hair
- To deepen colour (to darken)
- To give colour reflections
- To colour or tone hair that has been pre lightened

Creme Peroxide 20 Vol.

- To cover white hair
- To enhance reflections
- To lift natural hair colour up to 2 shades

Creme Peroxide 30 Vol.

- To lighten up to 3 shades
- For resistant hair
- To enhance warm reflections
- Covers white hair translucently

Creme Peroxide 40 Vol.

- For use with super lightener series
- To lighten up to 4 levels

Application Times

30 minutes

- To cover and colour tone on tone and darker tones

40 minutes

- To lighten 1-3 levels
- To cover and colour white hair

45 minutes

- To colour, to cover and give reflection
- To lighten 4 or more levels
- To cover and colour resistant, white hair

Treatment times may be reduced considerably by using heat accelerators.

NEUTRAL WHAT IS ITS PURPOSE?

Neutral has been specially designed to lift colour
WORKING ONLY FROM LEVEL 6 ONWARDS

Neutral 10.00 – Clear

Neutral 10.00 is used to add shine and reflection and create lighter and brighter shades.

It can lift up to 1/2 a shade on its own.

It can be safely added to the Super lighteners (highlift series) to boost colour lift. Add to your fashion colours for a more vibrant colour and to lift half a shade.

Creating Half Shade Lift With Neutral 10.00

Add 2-4cm Of Neutral To 7.0 = 7 1/2 Neutral

Add 2-4cm Of Neutral To 8.1 = 8 1/2 Ash

Add 2-4cm Of Neutral To 6.4 = 6 1/2 Copper
